My RESIDENCE Case Study

R²

"When starting our residence journey, we were recommended R² by a professional in the construction industry. Our installer arranged a factory visit for us, where we got to see first-hand the excellent manufacturing process and attention to detail.

It was the perfect balance of style and performance that drew us to Residence².

We would definitely recommend Residence Collection windows without hesitation! They have been a great investment for our project and represent excellent value for money."

Double glazed windows - 28mm glazing achieves up to $A/1.2W/m^2K$
