RESIDENCE 9 WINDOWS | CLOTTED CREAM ● GRAINED WHITE

My RESIDENCE *Case Study*

Flush sightlines and leaded glass create the ultimate traditional look

"We'd been researching windows and found out that Residence 9 windows were a popular choice in our area - based on the fact that R9 windows perfectly replicate traditional manufacturing methods to visually create something unique and of quality."

Our property comes under a conservation area so it was vital that we adhere to the council regulations for appearance too.

We're so happy with the new windows and I would, and have, recommended Residence 9 to friends! I have no doubt that they are a quality product and will be here for years to come.

We hope to use R9 in another upcoming project which will be starting soon, a full restoration of an 1856 farmhouse in 250 acres of land... watch this space!"
